

RECIST Basics

11/01/2025 to 11/01/2027

Enduring Material

Purpose:

RECIST is a method for obtaining reliable, reproducible measurements of tumor burden that can be accurately compared between centers and trials. The purpose is to provide reproducible, objective measurement of tumor burden either clinically or radiographically.

Objectives:

- 1 Identify differences between target and non-target lesions
- 2 How to measure and report target and non-target lesions at baseline
- 3 Identify best practices for following target and non-target lesions on subsequent scans

Target Audience:

Physician

For successful completion:

- Watch video
- Complete pre & post-test
- Complete evaluation

Accreditation & Credit Designation:

Accreditation

JOINTLY ACCREDITED PROVIDER™
INTERPROFESSIONAL CONTINUING EDUCATION

In support of improving patient care, Avera is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

Continuing Education Credit Designation(s)

Medicine CME: Avera designates this live activity for a maximum of 1.00 *AMA PRA Category 1 Credit(s)*™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Successful completion of this CME activity, which includes participation in the evaluation component, enables the learner to earn credit toward the CME of the American Board of Surgery's Continuous Certification program. It is the CME activity provider's responsibility to submit learner completion information to ACCME for the purpose of granting ABS credit.
