2025 Sequencing Tumor Board - 7/3/2025

07/03/2025 at 07:00 AM to 07/03/2025 at 08:00 AM

Live Activity

Purpose:

This case conference offers a multidisciplinary approach to review cases for somatic tumor results as well as other biomarkers and patient specific factors are considered and discussed to find treatment options for patients with cancer that have limited treatment options. The cases presented are referred by the treating oncologist or surgeon once the results for their next-generation sequencing tests from their tumor are returned. The multidisciplinary review includes the oncologists, surgeons and additional experts in oncology, pharmacology, genetics and clinical trials to discuss the best treatment options for individual patients based on the genomic alterations present in their cancer along with other questions about diagnostics, prognostic implications, potential clinical trials, and best standard of care options.

Objectives:

- 1 Integrate a multidisciplinary approach into the development of plan of care
- 2 Identify social determinants that affect patient care for oncology patients
- 3 Discuss and analyze patient cases with the healthcare team
- 4 Develop strategies and a team approach to prevent complications from therapies

Target Audience:
