

eCare Education Senior Program: Patient-Centered Care, Care Planning and Psychotropic Regulations for the Long Term Care Population

Presented by: Kiley Elsinger, RN; Angela Johnson, PharmD; John Erpenbach

PURPOSE: Upon completion of this activity, the learner will be able to define the care plan process for patients with behavior modifications keeping in mind the concept of patient-centered care and the regulations for administration of psychotropic drugs.

OBJECTIVES:

At the conclusion, participants should be able to:

- 1 List three care plan components for patients with behaviors.
- 2 Identify 3 ways to promote patient centered care throughout communication.
- 3 Name two alternatives to PRN psychotropics.

In order for you to successfully complete this activity and receive **1.0 CNE**, you must:

- a. Register for the online activity
- b. Complete the Pre-test
- c. View the attached video
- d. Complete the post test
- e. Complete the evaluation

Feedback Person for this education activity are listed below. If you have questions please contact them.
