

Avera Infection Prevention Day of Sharing Session

#4:

Trends in Antibiotic Resistant Organism – Health Department's Role in Preventing and Responding

- PURPOSE:** This presentation is being made up from the original Avera Infection Prevention Day of Sharing which was canceled. This is the fifth of five sessions being held which provide participants an opportunity to hear current topics in infection prevention and to network with other infection preventionists. This activity will lead to an improved consistency and competence in infection prevention and control practice.
- OBJECTIVES:**
At the conclusion, participants should be able to:
Recognize how pharmacy can influence antibiotic prescribing.
Describe the challenges ePharmacy experiences with their antimicrobial stewardship program.
- In order for you to successfully complete this activity and receive **1.0 CNE**, you must:
