

Avera Research Grand Rounds, January 2019 Recording

Publish Date: 3/8/2019

End Date: 3/31/2020

[Recording is available online via the Avera CE Portal](#)

Purpose: Upon completion of this activity, the learner will have better cooperative interactions and improved communication and understanding of ongoing research among investigators within Avera.

Objectives:

1. Recognize the difference between somatic tumor genetic testing and germline genetic testing
2. Identify how somatic tumor genetic testing can give insight to hereditary cancer risk and the limitations of its ability to do so
3. Recognize the frequency of genetic counseling referrals for somatic results and the utility of such referrals at the Avera Cancer Institute

Target Audience: Research, Hematology, Genetics, Obstetrics/Gynecology, Pathology, Oncology, Laboratory

Feedback Person for this education activity is listed below. If you have questions, please contact:

- Hannah Koble; Hannah.koble@avera.org

For successful completion:
