

Radiology 101

Presented by: Suzanne Woodward, MD

PURPOSE: Upon completion of this activity, the learner will possess broader knowledge base applicable to the day to day care of a patient in the inpatient and outpatient setting, specifically regarding radiology basics.

OBJECTIVES:

At the conclusion, participants should be able to:

1. Recognize which radiologic diagnostic study to order.
2. Identify the most common findings on a chest xray.
3. Identify common mistakes made by providers when interpreting radiology imaging.
4. Identify tubes and lines on radiographs
5. Recognize common emergency findings on radiograph.

In order for you to successfully complete this activity and receive **1.0 CNE and/or CME**, you must:

- a. Register for the online activity
