

Urinary Tract Infections

Presented by: Joseph Rees, DO

PURPOSE: Upon completion of this activity, the learner will be able to understand the subtle signs of urinary tract infections in the elderly and compromised populations including how to manage and recognize early.

OBJECTIVES:

At the conclusion, participants should be able to:

1. Compare and contrast asymptomatic bacteriuria verse urinary tract infection.
2. Determine appropriate initial antibiotic for start with suspect UTI.
3. Identify duration of therapy for urinary tract infections, for simple and complicated.
4. Describe strategies for preventing UTIs.

In order for you to successfully complete this activity and receive **1.0 CNE and/or CME**, you must:

- a. Register for the online activity
- b. View the attached video
- c. Complete the evaluation

Feedback Person for this education activity are listed below. If you have questions please contact them.

- a. Name & Email: cindy.Pirrung@avera.org

There is no conflict of interest related to this activity identified by planners, content specialists or feedback persons.
