

Avera vCNE Ambulatory Care Series - Thyroid Essentials: A Review of Thyroid Physiology and Common Disorders of the Thyroid Gland (Enduring Material)

** An e-learning course available on the Avera portal **

Program Goal

The vCNE Series is specially designed to update health care team working in acute and ambulatory care settings on hot topics, evidence based practice and Avera's current strategic initiatives. Thyroid issues are broad and present challenges and opportunities for care givers to partner with patients on their thyroid health. This session will provide an overview of thyroid function as well as explore common conditions in an effort to elevate understanding and tactical knowledge in this realm.

Objectives

- 1 Recognize the need to incorporate new knowledge of changes in practice into their daily care models.
- 2 50% of nurses can self-report a change in practice within 90 days of education
- 3 Review normal thyroid physiology and tests used in assessing thyroid function
- 4 Discuss common thyroid disorders and their treatment
- 5 Recognize thyroid conditions that need to be addressed more urgently.

Outcome

80% of nurses will pass a posttest to show knowledge of understanding thyroid essentials and common disorders of the thyroid with a score of 80% or greater.

Target Audience

Professions – Nurse - RN, Medical Assistants, Nurse - Nurse Practitioner, Nurse -LPN/LVN

Completion Requirements

- View the video
- Complete the post-test
