

Avera vCNE Ambulatory Care Series - Vaginal Bleeding: A Vital Sign for Your Health (Enduring Material)

Enduring Material

** An e-learning course available on the Avera portal **

Program Goal

The vCNE Series is specially designed to update nurses working in Ambulatory care settings on hot topics, evidence based practice and Avera's current strategic initiatives. Topics in women's health are frequently requested as subject matter, this session will focus on an overview of normal healthy menstrual cycles as well as review of common bleeding disorders.

Objectives

- 1 Recognize the need to incorporate new knowledge of changes in practice into their daily care models.
- 2 Understand the reason for shifts from volume to value in reimbursement from commercial and governmental payers.
- 3 Understand how Avera and other health care systems create their value-based care strategy.
- 4 Think about new models of care delivery from commercial insurance, employers, and government.

Outcome

80% of nurses will pass a posttest to show knowledge of understanding normal vaginal bleeding health including awareness of bleeding disorders with a score of 80% or greater.

Target Audience

Professions – Physician, Nurse - RN, Medical Assistants, Nurse - Nurse Practitioner, Nurse -LPN/LVN

Completion Requirements

- View the video
- Complete the post-test
- Complete the evaluation
