

AMG OB/GYN Update: Clinical Documentation Improvement (CDI)

Presented by: Dr. Kim McKay, MD & Tamara Rempfer, RN

Purpose: Upon completion of this education, the learn will be updated on clinical documentation from the labor and delivery perspective.

Objectives:

1. Review the importance of how clinical documentation can affect the coding for OB/GYN cases in a labor/delivery setting.
2. Review common medical diagnoses that need greater specificity in the documentation on labor and delivery.
3. Discuss cases where opportunity was noted between clinical documentation and diagnosis codes assigned.

Target Audience: Obstetrics/Gynecology, Family Practice Physicians, APRNs, PAs, and RNs.
