

Avera and Avel eCare jointly provides: eCare: Drug Diversion in Today's Healthcare Setting

Enduring Material

** An e-learning course available on the Avera portal **

Program Goal

The statistics are staggering! 10-15% of healthcare workers in 2019 reported misuse of drugs/alcohol to cope. 31% of hospice facilities in a recent survey reported diversion activity in the past 6 months. This course provides learners with knowledge of drug diversion including risk factors, prevention and the process of investigating a suspected drug diversion event.

Objectives

- 1 Define drug diversion
- 2 Discuss current trends with drug abuse across the country
- 3 Discuss the risk for drug diversion
- 4 Identify what can be done to prevent drug diversion
- 5 Describe the process of drug diversion investigation

Outcome

100% of participants will have increased knowledge of the drug diversion within the healthcare setting by passing post-test with score of 80% by completion of the education.

Target Audience

Professions – Physician, Nurse - RN, Student, Social Worker, Pharmacist, Pharmacy Technician, Nurse - Nurse Practitioner, Physician Assistant, Nurse -LPN/LVN

Completion Requirements

- Complete the pre-test
- View the video
- Complete the post-test
- Complete the evaluation
