

Avera vCNE Ambulatory Care Series - Avera ACO Update

** An e-learning course available on the Avera portal **

Program Goal

The vCNE Series is specially designed to update nurses working in Ambulatory care settings on hot topics, evidence based practice and Avera's current strategic initiatives. Avera's ACO has been in practice for a number of years now and this session will review this model of care delivery and the impact nurses can have in their roles and understanding.

Nursing Objectives

- 1 Recognize the need to incorporate new knowledge of changes in practice into their daily care models.
- 2 Understand the reason for shifts from volume to value in reimbursement from commercial and governmental payers.
- 3 Understand how Avera and other health care systems create their value-based care strategy.
- 4 Think about new models of care delivery from commercial insurance, employers, and government.

Outcome

80% of nurses will pass a posttest to show knowledge of ACO models and the impact on patient care, including the current status for Avera's ACO's, with a score of 80% or greater.

Completion Requirements

- View the video
- Complete the post-test
- Complete the evaluation
