

Pharmacy Pearls for Prescribers- Antimicrobial

Enduring Material

** An e-learning course available on the Avera portal **

Purpose

Pharmacy Pearls for Prescribers provides up-to-date information on medications, developed by a multidisciplinary group of AMG primary care physicians and pharmacists from Avera Health and Avera Health Insurance Division. An interdisciplinary group has been working to develop educational materials to meet this need. In this series we will discuss antimicrobial management related to: penicillin allergies: de-labeling, challenging and desensitizing; asymptomatic bacteriuria: when to treat and when not to treat; procedural prophylaxis against infective endocarditis; maybe 7 isn't lucky for antibiotic treatment duration.

Objectives

- 1 Discuss penicillin allergies and when to de-label, challenge or desensitize.
- 2 Distinguish when to treat and when to not treat asymptomatic bacteriuria
- 3 Review procedural prophylaxis against infective endocarditis
- 4 Determine if 7 days is really the lucky number for antibiotic treatment duration

Outcome

100% of participants will demonstrate their knowledge of antimicrobial agents by passing a posttest with a score of 80% or better

Target Audience-

Professions – Physician, Nurse - RN, Pharmacist, Nurse - Nurse Practitioner, Physician Assistant, Nurse - LPN/LVN

Specialties – Other

Completion Requirements

- View entire educational material
- Complete post-test
- Complete evaluation
