Compliance Check

Standard 5: Keep Accredited Education Separate from Marketing

- Marketing, exhibits, vendors, or promotions by ineligible companies must not:
 - Influence planning, delivery, or evaluation of education
 - Interfere with the educational content
 - Be a condition for financial or in-kind support
- Maintain Clear Boundaries:
 - **Live Events:** No marketing or non-accredited education within **30 min before or after** the accredited session in the same space
 - **Online/Print Activities:** Learners must not be exposed to **product promotion or advertisements** while engaging with the accredited content
 - **Educational Materials:** Must be free of **logos, trade names, or product group messages** from ineligible companies
- WHY IT MATTERS
 - These safeguards protect the integrity of our education and ensure the learners receive unbiased, evidence-based content. Attention to details helps maintain trust and compliance!
 - They also ensure we don't put our accreditation at risk!

Reminders

Mid-year check-in:

- Is your disclosure up to date and are your committees up to date?
- Do you have required documentation submitted (RSS Documentation, Summative QI's, etc)?
